The Siamese Prime Minister's Harem. Mrs. Leon Owens, who was the govern-

ess of the young princess of Siam, published a sketch of the prime minister of that country, and gives the following desciption of his harem:

long line of girls with skins of olive, portions, as yet but children, some twenty in number, with transparent draperies with golden girdles, their arms and bosoms whelly nude and covered with barbaric ornaments of gold. Their only garment, the lower skirt, floating in light folds about their limbs, is one of very costly material bordered heavily with gold. On the ends of Howard O'Neill in charge of eleven their fingers they wear long nails of gold, tapering sharply, like the claws of a bird." the photographer of the party, with joyment, the ze t of that existence there companions, ascended a cliff to which they cling with such rethe prime minieter sits stony and grim, his huge hands resting on his knees in statuesque repose. His deportment to his Tribune of that city, for a number female slaves was studiously ungracious and mean.

Most of the women who composed the language fluently, and some Indian harem of the king, who died in 1868, were of gentle blood, the fairest of the daughters of the Siamese nobles and princes of the adjacent tributary states; the queen consort was his own half-sister. Beside many choice Chinese and Indian girls, their own. They came from Chihpurchased annually for the royal harem by agents from Bangkok and Bengal, Im- ualius and traveled the distance on of agence in the property of the state of th at Bangkok and Singapore for an English toot, beating their masters who woman of be uty and good parentage to rode on mules. One of the men has crown the sensual collection. French women offered themfelves for the harem. but the king would not accept them .- eleven hours, and the lieutenant Book Review.

Bill Arp's Opinion of the Doctors. If the doctors had to shed tears for every patient, the fountain would soon be ex- man intends exhibiting these strange usted. They experiment and diagnose and make mistakes and lose patients, but it is all for the best. Somebody has to be afterwards taking them to Europe sperificed or science would not progress. The doctors experiment with disease and kirmish with death fust like the general of an army fights battles. Some must be sacrificed to save the country, and so after a battle he counts up the killed and wounded and is happy if he has killed more of the other side than he lost of his own. He likes to show a good balance sheet, even though it is a bloody one Victory and glory are bigger things than numan suffering or the grief of "he loved ones at home.

But still the family doctor is a part of he is drawn to us. He has enough sympathy for his purposes. His tenderness may be professional, but it is the right right kind for the patient. The doctor is nearer and dearer to the family than the prencher, although one ministers to the mortal body and the other to the im-mortal soul. Bodles are bigger things than see is. The whole world with all its year machinery is at work for bodies, but the world with a life of the sold. the work done for souls is only a side show in comparison. The family doctor holds a higher place than the family law money or property, and there are but few lawyers who would not take a case against us as readily as one for us. There from here consume an average of are two sides to hitigation but only one to 250 hard of with
